

## Customer Information Notification **Update**

202109001IU01 : Product Label Change Related to Environmental Classification

**Note:** This notice is NXP Company Proprietary.

**Issue Date:** Sep 10, 2021 **Effective date:** Sep 14, 2021

Here is your personalized notification about a NXP general announcement.  
For detailed information we invite you to view this notification online

### Management summary

Due to an update in internal classification, some legacy NXP products in wafer delivery form will have an additional environmental information on their package labels. Besides the existing lead-free and RoHS compliance markers, the products will now also be marked as halogen-free.

## PCN Overview

### Description

NXP has an internal classification system for managing product metadata related to environmental regulatory compliance. This system differentiates several possible values of compliance. For products compliant to the European and Chinese RoHS regulation, these inform about residual presence of Lead, Antimony oxides and Halogens and their compounds.

After an internal review, it was found that a number of legacy products in wafer delivery form were eligible for a higher classification than was applied so far. These products' label information will be updated to reflect the current view of their compliance. This means that in addition to the "RoHS" and "lead-free" markers that these products already had, a third marker "halogen-free" will also be printed on their labels.

### Reason

As NXP's classification system for environmental regulatory compliance has evolved over time, today it has more levels than at the time when some legacy products were originally classified. An internal review found that a number of products were eligible for a higher classification than was applied so far.

### Identification of Affected Products

Packing Labels

## Anticipated Impact on Form, Fit, Function, Reliability or Quality

---

No Impact on form, fit, function, reliability or quality

### **Data Sheet Revision**

No impact to existing datasheet

### **Disposition of Old Products**

Existing inventory will be shipped until depleted

## Update Information

---

compared to the original notification the list of affected products has been updated, and now covers a larger number of product families / product lines.

## Contact and Support

---

For all inquiries regarding the ePCN tool application or access issues, please contact NXP "Global Quality Support Team".

For all Quality Notification content inquiries, please contact your local NXP Sales Support team.

For specific questions on this notice or the products affected please contact our specialist directly:

<b>Name</b>	Mario Stoltz
<b>Position</b>	Product Manager
<b>e-mail address</b>	mario.stoltz@nxp.com

At NXP Semiconductors we are constantly striving to improve our product and processes to ensure they reach the highest possible Quality Standards. Customer Focus, Passion to Win.

NXP Quality Management Team.

### **About NXP Semiconductors**

NXP Semiconductors N.V. (NASDAQ: NXPI) provides High Performance Mixed Signal and Standard Product solutions that leverage its leading RF, Analog, Power Management, Interface, Security and Digital Processing expertise. These innovations are used in a wide range of automotive, identification, wireless infrastructure, lighting, industrial, mobile, consumer and computing applications.
