Process Change Notification

Date: Sunday, June 22, 2014

PCR Reference: 208

PCN Reference: 1617

To Our Value Customer:

As always we appreciate your use of International Rectifier semiconductor products. Our commitment to customer satisfaction and continuous improvement is demonstrated by our change plans to enhance capacity, quality and reliability. This notice is to inform you of the following changes.

We would like to express our sincere appreciation for your cooperation regarding the following changes, and IR will work closely with you to support your requirements during this transition.

Type of Change Notification:

Additional assembly site for SO8 products.

Description of Change:

A TEC (Philippines) will be the alternate assembly site for the part numbers identified in the following table. As a result of this change, the Bill of Materials and part marking will change to the following:
Mold compound: Hitachi CEL9000-series Die attach: Hysol QMI500-series

Reason for the Change:

Additional assembly capacity.

Effect Date:

Saturday, September 20, 2014

International Rectifier will consider this change approved and will implement it by the effective date unless specific conditions of acceptance or data requests are provided in writing within 30 days of receipt of this notice. Please submit conditions of acceptance and data requests to the PCN coordinator listed at the end of this notice.

Impact of Change:

No impact is expected. The new assembly site will meet the same qualification level as the existing products. Product Datasheets will remain unchanged.

Products Affected:

| Part | Description |
|--------------|-------------|
| IRF9389PBF | |
| IRF9389TRPBF | |

Qualification:

Parts passed all the reliability testing requirements. Reliability qualification report is available upon request. Qualification standards can be found on International Rectifier's web site at www.irf.com/product-info/reliability

Supporting Data Availability:

Contact IR for supporting data on this change.
