NO: SW-065 **PRODUCT:** A22E_ Emergency Stop Switches
DATE: February 2010 **TYPE:** Modification Notice

## All A22E Emergency Stop Switches Now Shipped with the Lock Plate to Improve Safety

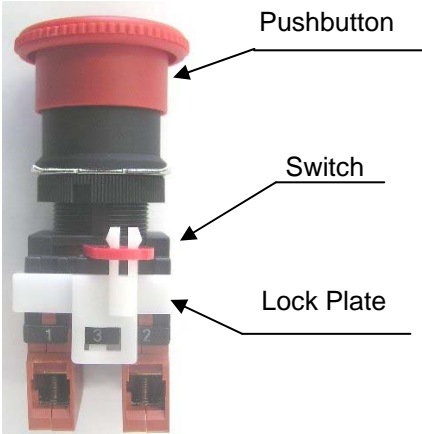

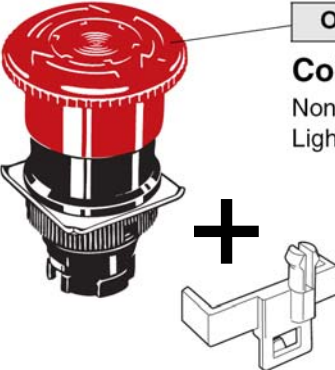

Lock Plate

Previously, the A22Z-3380 Lock Plate was available as an accessory to be ordered separately; however, to improve the safety of the switch by protecting it against accidental or unintended removal, the locking plate is now shipped with all A22E_ Emergency Stop Switches. The change started in Japan in February 2008 and has rolled out worldwide as stock turned over.

Availability of Newer Models

Inventory of all existing models has been verifed and new models will begin shipping immediately with the Lock Plate included with Assembled A22E Emergency Stop Switches and with the Operation Units.

Additional Information

Mounting the Lock Plate

1. Confirm that the lever on the Mounting Latch is on the side where the Operation Unit is secured and then insert the protrusion on the Lock Plate into the hole in the lever on the Mounting Latch.
2. Press the hole on the Lock Plate onto the protrusion on the Mounting Latch until it clicks into place.
